### Description

---

"Since 1921, the Bentley name has remained synonymous with prestige, performance and luxury. The 'Continental' designation recalls the Bentley Continental of the post-war period. The 'R' resonates to the R-Type Bentleys from the 1950s as well as the Turbo R of the 1980s. Bentley's 1980s resurgence relied exclusively on models whose basic architecture was shared with other Rolls-Royce models however; the Bentley Continental R was unique to the Bentley marque. Despite the need to incorporate non-traditional features such as doors recessed into the roof, the result looked every bit a Bentley, albeit one restated for the 1990s. Needless to say, the performance was outstanding, the combination of the Turbo R engine in the new wind-cheating shape cutting the 0-60mph time to under six seconds and boosting a top speed in excess of 150mph.

This 1993 registered Continental R is finished in British Racing Green with a contrasting Parchment interior piped in Spruce Green and with Spruce Green carpets. The dark walnut facia, waist rails and centre console are synonymous with such a luxury marque. Aesthetically, a Continental R is a beautiful design, but this example is further enhanced by the fitment of a chrome radiator grille and matrix. The car is supplied with a V5 registration document, a current MoT test certificate valid until October 2021 and a service history substantiating the low mileage. Within the history file is evidence of recent expenditure of circa £16,000 and proof of a maintenance regardless of cost philosophy including invoices for a full brake overhaul and servicing. A privately owned example which is garaged when not in use and fastidiously cared for, this represents excellent value in comparison to the price when new. To drive a Continental R is a memorable experience; this car represents an

opportunity to acquire an extremely fine example of a superb motorcar.
