Year of manufacture	2014	Condition	Used
Mileage	7 597 mi / 12 227 km	Location	
Gearbox	Manual	Exterior colour	Other
Lot number	358	Car type	Other

Description

"The Morgan Plus 4 was the Morgan Motor Company's first car with four wheels, introduced in 1936 following the end of production of the famed three wheeled motorcycle engine models. Its model designation '4-4' (later '4/4') stood for four wheels and four cylinders. Apart from a break during World War II (and the period March 1951 to September 1955) the 4/4 has been in continuous production from its debut right up to the present day. The Plus 4 is a larger and more powerful version of the Morgan Motor Company's 4/4 model and was made between 1950 and 1969, 1985 to 2000 and was again revived in 2005. Always a popular choice for sports car enthusiasts across the globe, the combination of the typically British 1930's styling with its flowing wings, modern performance and reliability have ensured the Morgan is as popular today as it ever has been. This stunning 2014 Plus 4 has been with its one and only owner since new, purchased as a gift by his father upon graduation from Sandhurst in 2014. The car was specified with a plethora of extras and finished in what is considered to be one of the very best colour combinations of royal blue with tan leather. After visiting the car at the factory and taking delivery it has only been used occasionally in the summer months and when not, dry stored. With our vendor now a Major and having a young family, the car is getting less use and so he has decided to part with what is an almost new Plus 4 in lovely condition throughout. Offered with the original sales invoice, service booklet and UK V5C registration document together with an MoT valid until June 2021, this well specified car really has to be seen to be appreciated.
