Year of manufacture	1995	Condition	Used
Mileage	79 370 mi / 127 734 km	Location	
Gearbox	Automatic	Exterior colour	Other
Lot number	220	Car type	Other

Description

"After 25 years from the introduction of the first-generation Range Rover, the second-generation Range Rover model, designation P38A, was introduced for the 1995 model year with an updated version of the Rover V8 engine. The new model offered more equipment and premium trims positioning the vehicle above the Land Rover Discovery to face ever increasing competition in the SUV marketplace. These superb motorcars are the choice for any discerning motorist with the HSE representing the highest specification in terms of luxury and options. This model was the last to feature the Rover V8 and interior leather supplied by Connolly and the first model to feature satellite navigation as an option.

Originally registered on 23rd October 1995, this top specification Range Rover is finished in metallic maroon which was a special option and an additional cost when new. The interior is trimmed in cream leather which is nicely complemented by the wooden trim around the centre console. Fitted with a sunroof and a towbar, this 4.6 litre HSE Autobiography has the original toolkit and comes with the private registration of N100 ORR which cost £600 in 1995. Supplied with a V5C registration document and a current MoT test certificate valid until 2nd November 2021, this Range Rover is offered for sale without reserve and could be an ideal purchase with the winter months looming.
