Year of manufacture	1968	Condition	Used
Mileage	75 971 mi / 122 264 km	Location	
Gearbox	Manual	Exterior colour	Other
Lot number	392	Car type	Other

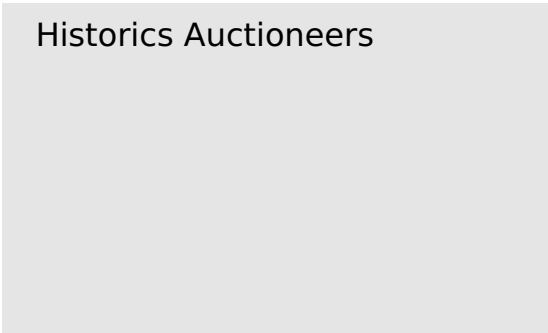

### Description

---

"The Lancia Flavia was launched initially with a 1500cc overhead-valve, horizontally opposed four-cylinder aluminium engine which was mounted ahead of the front wheels providing a drive with plenty of torque. Combined with the independent front suspension and beam axle at the rear, great road holding was achieved while the dual-circuit, servo assisted all-round disc brakes gave the Lancia Flavia exceptional braking combined with front wheel drive performance making it a very advanced vehicle from its time.

This Lancia was registered in January of 1968 and is now available for sale as part of a deceased estate. Fitted with the larger 1800cc engine, this Flavia runs but will require mechanical attention to ensure roadworthiness. Presented to auction with a V5C registration certificate, this MoT test exempt car is offered without reserve."
