## Ferrari 360 "Mancave" V8 engine

Price

**USD 9 953**  
EUR 8 250 (listed)

Location

### Description

This Type F131B Ferrari V-8 engine would have originally been fitted to a Ferrari 360 Modena or Spider. An all-new engine for its use in the 360, this 3.6-litre V-8 engine featured a flat plane crankshaft along with titanium connecting rods. Total output was quoted at 395 bhp.

This example has originally been fitted to a LHD 360 Modena, originally delivered to Germany. Presented in full "Mancave" condition, it can be used for display.
