- Good restoration project
- Sound body
- Attractive estimate

A brilliant concept, the Citroën 2 CV is a simple and robust car requiring little maintenance. Its origins date back to the 1930s when Pierre Jules Boulanger, the brand's engineer, launched a TPV project: Toute Petite Voiture. He was assisted by the genius designer Flaminio Bertoni and André Lefèvre. With a career spanning more than 42 years, it is one of the most famous cars in the world, selling more than 5 million units.

The model presented here is a blue 2CV6 equipped with the 3CV engine. The interior of this one is in black simili. The set is complete and very healthy. An easy restart will be necessary to get back on the road at the wheel of this legendary car.
