### Description

---

At the debutante track, Lewis Hamilton has etched history by becoming the first driver to win on the circuit located 35km on the outskirts of the Tuscan capital of Florence. The AMG Petronas Mercedes driver started from pole at this brand new Italian venue, but still had to show great skill, nerve and intelligence in the craziest race of the year that featured not one, but three standing starts! After his slightly disappointing outing at Monza, fans are thrilled as he edges closer to two short of setting a new record number of wins. This Collector's Edition celebrates Mercedes-AMG Petronas F1 Team cars and drivers, proudly parked amidst a blend of Italian and Tuscan flag colours. Etched in a special silver emboss is the name of the man of the moment - Lewis Hamilton.
