Description

Transmission: 4 gears, Manual gearbox

Model year: 2021

Registration number: TR-32-26

This 1972 Triumph TR6 was supplied from new to Switzerland. It is therefore an original European supplied Triumph Tr6 with the 150 Ps fuel-injected engine. Over the last few years, this Triumph TR6 has been immaculately restored. Years of searching for original parts preceded actually restoring the car. The restoration starting in 2017 only to be completed in 2020. Mechanically the car was also rebuilt. It would appear that the restoration was done with the brochure in one hand. The car looks like it was sent from 1972 to 2021 in a time machine. The attention to authentic detail is incredible. It is all so very beautiful! The bodywork is in perfect condition with great panelwork and perfect shut lines. The quality is second to none. The perfectly fitted chrome brightwork and lights are of the highest quality. The new bumpers continue the story of excellence. During the restoration, the car was taken back to bare metal and given her original Emerald Green finish. The fact the eventual result is so good can be traced back to the foundation used. It was a very well maintained rust-free

Triumph TR6. The Swiss are well known for really looking after their cars and the previous owners were no exception to this rule. For the hood, a new vinyl example was used to reflect as much authenticity as possible. It goes without saying that the pristine hood fits perfectly. The interior was also reupholstered with black vinyl on the seats and black carpets on the floor. The dashboard was given a new wooden inlay topped with vinyl. It's the details that reaffirm the quality of this restoration, like the perfect window rubbers, the original lights, the switching gear, all of this being in perfect condition. Then there is the mechanical aspect to mention, with its fully rebuilt engine and transmission. You really can feel the difference when driving the TR6. The engine runs fantastically and thanks to the perfectly tuned fuel injection it keeps up the pace smoothly. The transmission with overdrive works precisely. The brakes and suspension are all as good as new. It has been a while since we last saw such a lovely Triumph TR6. This is a TR6 for that man or that woman who appreciate originality and is looking for one of the best examples on the market. The car comes with a large document file and is in turn-key condition. To summarise: We have a top-quality restored Triumph TR6 in a wonderful finish and in fantastic mechanical condition. Gallery Aaldering is Europe's leading Classic Cars specialist since 1975!
