		Fuel type	Petrol
		Exterior colour	Other
		Car type	Coupé
		Exterior brand colour	Storm Black
		Interior brand colour	Chancellor Red

Description

Announced to the world at the 2007 Pebble Beach Concours d'Elegance, the DBS replaced the 2004 Vanquish S as the flagship of the marque. Having featured in two James Bond films, *Casino Royale* and *Quantum of Solace*, the DBS is aggressive and powerful demonstrating an exciting direction for Aston Martin. The V12 engine from the DBS produces 510 bhp, can reach 0-60 mph in 4.2 seconds, and has a top speed of 191 mph. Aston Martin's high level of refinement has meant wind noise is well suppressed, and the big V12 is vocal when you want it to be and near-silent the rest of the time. Along with an excellent ride it makes for a formidably able long-distance tourer. This particular DBS has been finished in Storm Black exterior and Chancellor Red interior as well as being fitted with a Touchtronic transmission. This petrol-powered mile muncher is the perfect car for someone who wants to cruise across continental Europe in incredible comfort while being able to accelerate off the line like a supercar. We are especially excited about being able to have this DBS in our showroom because this actual car was the vehicle that Aston Martin displayed at the 2008-09 motor show. This demonstrates how proud and confident the British brand was of this car. This DBS includes a Paint Black Facia Trim, Auto-Dimming Rear View Mirror, Personalised Sill Plaques, Chancellor Red upper and lower trim colour, 20-Spoke Graphite wheels, and a Bang & Olufsen entertainment system. With

only 15,031 miles on the clock, one former owner from new, and a full documented history you probably can't find many better DBS models on the market. If you're interested please get in touch with one of our sales team.
