Description

The Made in Italy diving watch is part of the new permanent Unimatic Classic series, featuring high legibility dial in black matte with Super-LumiNova® C3 pale green for the best possible performance in any conditions. The permanent series is a functional design evolution of the Unimatic references and stands as an archetype of the ideal performance timepiece. It is distinct with a new 'CLASSIC' writing on the dial as well as on the screw down caseback engraved with 'Rosa dei Venti' diagram.

The reference is part of the new permanent Unimatic Classic series

Individually numbered

Comes in the two-slots Unimatic Tough Case

Modello Tre Classic ref. UC-3 is the Made in Italy chrono-diver watch. It features a two-eyes black matte dial with markers in Super-LumiNova® C3 pale green lume matching the lumed dot on the minimal black aluminium diver insert and an off-white closed second rail and dial trims.

Time is indicated thanks to the matching phantom ladder hands set and the black reverse lollipop second hand with off-white tip. The 2.5 mm thick double domed anti-reflective sapphire crystal provide the best performance in every light condition.

The solid 316 brushed stainless steel case, the screwed-in 2 mm thick caseback, the 8 mm diameter

crown coupled with fat 5.5 mm screw-in pushers, together with the high quality gaskets set provide a water resistance tested individually to 30 atm=300m=1000ft.

Timing accuracy is guaranteed by the VK64 mech-quartz movement tuned to 32,768 Hz for 3 years battery life, with 1/5 of a second indication plus 60 minutes counter. Comes on a black heavy-duty Unimatic nylon nato strap with a stainless steel brushed hardware signed UNIMATIC.

The caseback features an Unimatic "Rosa dei venti" diagram and the individual progressive number. The watch is covered by a 24 months worldwide warranty.
