Description

Are you looking for a stunning historical racing motorcycle? Well, the Ducati 916 Senna is definitely one of these!

After the death of the legendary race-car-driver Ayrton Senna Ducati produced a Limited Edition called 916 Senna. In 1998, a limited number of only 300 specimens were produced and some say that this bike is the most beautiful motorcycle ever made until today. Unfortunately, most of them have not survived the passage of time and the rare survivors are mostly in bad condition or driven on race tracks.

The motorbike in this advert is Nr. 78/300 and in absolutely perfect technical, optical and original condition and was never driven on race tracks. This service maintained motorbike is probably the best remaining and preserved example out of the breathtaking Senna series and a piece of art.
