Drivetrain	2wd	Car type	Coupé
		Engine number	6630225
		Exterior brand colour	Bahia Red

Description

This is the first M472 "Lightweight Body" series (thanks to its very thin sheet of 0.8mm). It is chassis # 192 of the 500 cars produced to homologate the 2.7 RS in Group 4 competition.

This magnificent Porsche 2.7 RS Touring was delivered new to Germany on 03rd January 1973.

A very nice article retracing the history of this car was published in the famous magazine "Flat Six".

The car is 100% Matching, 100% restored and in new condition.

The total restoration was carried out in 2015 at Marc De Siebenthal (Meca Components) - Porsche specialist based in Switzerland.

All invoices and pictures relating to the restoration and all the work carried out in recent years are available on request.
