		ESP	Yes
		Immobilizer	Yes

Description

Transmission: 8 gears, Automatic

Number of cylinders: 6

Engine capacity: 2.981 cc

== Porsche 911 991.2 Targa 4 ==

With the new 911 Carrera 4 and 911 Targa 4, they now profit from an increase in sporting characteristics and comfort in the latest 911 generation: the innovative turbocharged engines are more powerful and consume less, with the improved all-wheel drive increasing dynamics and driving safety. In addition, the adaptive PASM chassis (Porsche Active Suspension Management) with its ten-millimetre lower ride height included as standard enables an even greater spread between sporty

circuit and relaxed long-distance driving.

New developments in the visual appearance also underline the sophisticated elegance of the 911 Targa. With its individual design, the new 911 Targa continues to stand out clearly from the coupé and cabriolet. It spectacularly combines the classic Targa idea with advanced roof convenience. Like the legendary original Targa, it has the characteristic wide bar in place of B pillars, a removable roof section over the front seats and a wrap-around rear window without C pillars. The roof segment can be opened and closed at the push of a button, with the soft top being accommodated behind the rear seats as it opens.
