Number of cylinders: 8

Engine capacity: 4.000 cc

== McLaren 765LT V8 4.0L 2021 ==

The McLaren 765LT opens a new chapter in the 'Longtail' story that began with the McLaren F1 GTR race car in the 1990s and since 2015 has seen road-legal LT models introduced. The new car elevates to new levels the attributes that underpin every LT: driver engagement, track-focused dynamics, minimised weight, optimised aerodynamics and increased power are all amplified - particularly the first two.

"The 765LT is the most accomplished and exhilarating LT model ever from McLaren Automotive. Incredible performance and astonishing levels of driver engagement - the result of hundreds of detailed engineering actions undertaken to ensure the purest possible connection between driver and car - are the stand-out attributes of an LT developed with single-minded determination to deliver a wholly immersive driving experience to those who secure one of the 765 available to customer

order." Mike Flewitt, CEO, McLaren Automotive.
