

# CLASSIC DRIVER

## RM Sotheby's - The Guikas Collection is a single-owner concours competition

**Lead**  
RM Sotheby's - The Guikas Collection sale on November 19th doesn't have a single car that wouldn't turn heads, making this a very difficult top 10 to pick.

No matter what your automotive preferences, it's almost guaranteed that one of your dream cars will be going under the hammer at [Le Castellet on 19 November as part of RM Sotheby's - The Guikas Collection sale](#). With possibly the highest concentration of holy grail automobiles so far this year at auction, it's very hard to choose highlights from the rest of the lots, so we recommend you look at the entire sale. However, when you have one of the most beautiful cars ever made up for grabs, such as this 1964 Alfa Romeo Giulia Sprint Speciale, it becomes easier to just let your eyes make the decision for you.

Other stand-outs include the Ferrari F40's predecessor, the 512 BB/LM, or if you're in the mood for something more British, then the lister Storm GT, with its fantastically 2000s livery, and the Aston Martin DBRS9 are well worth a look. However, if you're simply lusting after a classically good-looking gran tourer with a V12 up front, then the Lamborghini 350 GT and Ferrari Daytona Plexiglass will have you dreaming of Prancing Horses and Raging Bulls. We're barely scratching the surface here, so once you've perused through our top 10 below, we recommend taking a look at the auction itself!

### Here's our top 10 lots from RM Sotheby's - The Guikas Collection:
