
Crazy Zagato bodied Toyota leads the madness in this auction

27 October 2021 | Tim Hutton

Japanese auction house BH are well known for presenting some pretty exotic machinery and this Zagato bodied Toyota MR-S grabbed our attention as we picked out ten favourite lots from their October sale.

As well as the TMI VM 180 you will need to check out the 1982 Lancia 037 Stradale, Alfa Romeo 8C and Lamborghini Gallardo Super Trofeo, all flying the flag for Italy. Meanwhile the Opel Speedster is a refreshing alternative to the Lotus Elise and representing Porsche is a pair of 3.6 Turbo 964s, just choose if you want a sunroof or not! And let's not forget the Manthey Racing GT3 RS for those of you that seek track toy nirvana.

The Estoril blue BMW Z3 M remains a great value modern classic, but for us we would be driving home in the petrol blue 1996 Aston Martin Vantage V550/600, pure class. [Check out the full auction listings in the Classic Driver Market.](#)
