
Are you ready for this barely legal Need for Speed Hot Pursuit revival?

15 November 2021 | Jan Baedeker

Remember Need for Speed Hot Pursuit? Well, it looks like our friends from Mechatronik have played the same game back in the days, because they have just recreated the iconic highway pursuit - with real cars!

Just imagine cruising along on the Autobahn when you are suddenly overtaken by not one, but two Mercedes-Benz CLK GTR chased by a Lamborghini Murcièlago in full Highway Patrol garnish with flashing red and blue lights. Honestly, this is the most bonkers thing we have seen in ages. Well played, Pascal Stephan and [Mechatronik crew!](#)
