

## Your next vintage watch awaits you at this Swiss auction

14 March 2022

Classic Driver

Vintage watch shopping in Switzerland is always a good idea. On 23 March, Schuler Auktionen is selling a selection of fascinating timepieces in Zurich. We have picked our favourite watches from the catalogue.

While Schuler is offering a broad selection of artworks, antiques, design objects and collectibles at their upcoming spring sale - [you can browse all 2795 lots in the Classic Driver Market](#) - we were particularly excited about the vintage watches we found in their catalogue. Besides the certified icons like the Heuer Monaco and Carrera, the Breitling Navitimer, or the Rolex Submariner, there's also a selection of less well-known, but similarly exciting watches to be found. After all, we had almost forgotten the 1970s Corum watch that resembled a golden Rolls-Royce grille.

### We would bid on these timeless vintage watches
