Description

A Jaguar XJ6 Series III in completely original condition, with only one previously registered owner and a very low mileage of 50.537 km is quite unique. This car looks like it was only recently delivered to the first owner, and still in beautiful condition. Finished in the elegant colour combination of Rhodium Silver Metallic in combination with an interior in Isis (dark blue) hide, this is one stylish motorcar. The XJ6 was delivered when new by Jaguar dealership Caspers in Groningen on the 15th November 1983, and always maintained by this Jaguar dealership. The car comes with all books and tools, and is the perfect classic car for someone who appreciates originality. Most of these cars are neglected or completely worn out, but this unique example looks, feels and drives like a very fresh XJ6.
