## The Dark Lord returns with TAG Heuer's latest special edition Monaco

**Lead**  
To celebrate this year's Monaco Grand Prix, TAG Heuer have revisited the fan-favourite "Dark Lord" Monaco of the early 1970s with their latest special edition timepiece.

Following on from what was a very dark and stormy edition of the Monaco Grand Prix, it seems fitting that TAG Heuer have revisited the "Dark Lord" Monaco of the early 1970's with this new and eye-catching blacked-out timepiece. With a titanium case finished in an all-black, super durable DLC coating, and a black dual-textured dial, this latest Monaco offers a subtle alternative to the more vibrant 'regular' Monaco. If this stealthy timepiece has caught your eye, head over to the CD Shop to secure your own!
