[Get road trip ready with these new items from 8JS](#)

Lead

Keys. Wallet. Phone. Camera. What's missing from those essentials? Why, sunglasses of course. Whether you're planning a last-minute blast to St Tropez or grabbing lunch at a local restaurant, 8JS has you covered with their new range of sunglasses by the name of 'Casino'.

In their first-ever sunglasses collection, 8JS' frames have been inspired by those worn by the likes of Jackie Stewart and François Cervet during the 1970s, made from the finest Italian Acetate with lenses designed specifically for driving. Our personal favourites are the 'Tortoise' frames from the [Casino range](#), a timeless shade of light amber that ensures they suit any face type. They combine sophistication with durability, allowing you to complete your look no matter how formal you're going.

If you find yourself lounging by a pool in Lake Como or somewhere equally as beautiful, there's one more essential item of clothing for looking the part while being comfortable. 8JS has the answer, with their brand-new swim short collection. Designed with the motoring enthusiast in mind, these shorts are available in several striking designs, including one with miniature yellow Targas over a navy and white pinstripe – perfect for a dip in the ocean! Discover both the swim shorts and the Casino eyewear collection in the CD Shop.

[BUY NOW](#)

The [CD Shop](#) is an automotive concept store that celebrates car culture and the art of the automobile. It is curated by Classic Driver. Now you can discover our favourite driving essentials, must-have car books and magazines, automotive accessories, collectibles, watches and more – all in one place.
