

CLASSIC DRIVER

8JS and Ted Gushue come together to create wearable art

Lead

There’s nothing cooler than seeing two friends of Classic Driver come together and collaborate. We take a closer look at the recently launched 8JS x Ted Gushue collection.

Here at Classic Driver, we are privileged to see some of the incredible things that arrive in our inboxes appear in our Magazine, enter our extensive collector car market, and of course, become available in the CD Shop. So when we were informed that the ever-stylish 8JS had teamed up with none other than photographic savant Ted Gushue, we just had to know more.

Currently Editor-in-Chief at Type7 and Global Ambassador for little place called St. Moritz, Ted has photographed almost every automotive icon you could possibly imagine, so it seems only right to add them to a t-shirt or two. Combine Ted’s impeccable eye for capturing detail with 8JS’s 100% cotton tee, and you have the perfect addition to your summer wardrobe.

You’ll find a variety of different styles right here in the CD Shop, but be warned, these tees aren’t likely to stick around for long, so get them while you can!
