Description

In 1987 the Panda 4x4 Sisley limited edition was released. It differed from the other Models with metallic paint, inclinometer, white painted wheels, roof rack, headlamp washers, bonnet scoop, "Sisley" badging and trim.

The first Version of the Sisley was originally limited to the production of only 500. In 1989 the Sisley model became a permanent model.

This Panda is a 1990 Model and has been entirely restored with bodywork and paintwork. The stylized Sisley interior was also resoterd and is like new. The body seems to be healthy and appears to have never been used for offroading. During the restoration process the radiator was replaced and the front brakes (discs + pads) were upgraded with Brembo parts. The electrical system was reconditioned as well as the headlights. A complete service was carried out in April 2022.

The Panda features the original plates (SV) 1990, single document 2022.

The Tires 145 / 80R13 74Q PIRELLI WINTER 160 are excellent for all terrains.
