Just hit the jackpot? Burn it all on these 10 hypercars!

Lead

They say what happens in Vegas stays in Vegas, but thankfully that isn't the case for the owners-to-be of the crazy assortment of hypercars coming up for auction at RM Sotheby's Las Vegas sale on November 17th!

It finally happened: you hit one of the biggest jackpots in Las Vegas. That crusty old man was right, your slot machine was about to drop 25 million bucks on the next lucky customer, and staying true to his advice, you immediately put it all on red at the roulette table. They say lightning doesn't strike twice, but this evening in Las Vegas you've just amassed a whopping 50 million dollars to your name. Now, where to spend it?

Well, if it turns out that I'm some sort of car-crazed prophet, I recommend booking a hotel — perhaps The Chairman's Suite at The Bellagio — until at least November 17th. That's because [RM Sotheby's are hosting one of the most star-studded auctions we've ever seen](#), packed with hypercar holy grails. For the Japanophiles among us, the Lexus LFAs (available with or without Nürburgring Package) would be a great way to splash some cash. Meanwhile, Porscheholics are spoiled for choice between the 959, Carrera GT, and 918 Spyder that are all up for grabs. Otherwise, if only the finest of Mosheim's masterpieces will excite you, then the Bugatti Veyron and exquisitely rare EB 110 Super Sport should more than satiate your need for speed. As long as your bank account is healthy enough, November 17th could be the day your automotive dreams come true. Just take a look at the 10 ultra-desirable hypercars below and see!
