Immerse yourself in the art of the automobile in the CD Shop

Lead
Cars have inspired many great artists to capture their beauty and speed in paintings, graphics, models, and sculptures. Here's a selection of our favourite works of automotive art from the CD Shop.

Whether you're a sculpturer, painter, graphic designer, or anything in between, it's likely the automotive world has had an impact on your creations in some way or another. For artists like Alan Thornton or fine art creators like Automobilist, their entire lives have been built around their admiration for cars, making some truly astonishing creations along the way.

This festive season, we'll be bringing together a selection of our favourites, all hand-picked in various collections, with this collection focussing solely on the art of the automobile. Car design can evoke passion, drama, and presence, giving their viewers inspiration in their lines and crevasses.
