

CLASSIC DRIVER

Cozy up, light the fireplace and enjoy Classic Driver's most timeless winter stories

Lead

While most people would send their classic car into hibernation once the first snow arrives, we think the only sane thing to do in winter is to get out and drive! Luckily, we have met some likeminded people over the years - here are their stories.

If you are lucky, you found [a copy of Classic Driver's 25th anniversary book](#) under the Christmas tree. And by now you should have read it end-to-end, yearning for more. Therefore, we have compiled our favourite winter stories from the Classic Driver archive, giving you even more reason to refill that whisky tumbler, throw some logs into the fire, pull up that cashmere blanket and dive right into these sub-zero cool snow stories.
